# Nokia. Your future destination?

TAP into Nokia with the new Nokia Telecommunication Associate Program. Gain knowledge in key telecom sectors and discover what it's like to work at Nokia.

NOKIA

Introduction

Welcome to TAP!

If you're reading this program, then it's likely you're already starting to think about your future career – which means you've come to the right place!

At Nokia, we create technology that helps the world act together - and who wouldn't want to be a part of that!

During this 3 half-day program you will gain an overall understanding of what we do at Nokia, how we operate as a global company, and what a career at Nokia looks like. You'll also take a deep-dive into some of our top technology sectors such as telecoms software and automation, and you'll learn how 5G technology is transforming networks by connecting people, businesses and machinery.

You will participate in an end of program assessment so you can earn your Nokia badge to share on your social networks and CV!

NOKIA

Program details

The TAP program is for university students with a background in science, technology, engineering and mathematics (STEM).

TAP into Nokia with the new Nokia Telecommunication Associate Program. Gain knowledge in key telecom sectors and discover what it's like to work at Nokia. The goal of TAP is to increase awareness about telecommunications technologies within the university community – And in the end, Nokia might be your future destination!
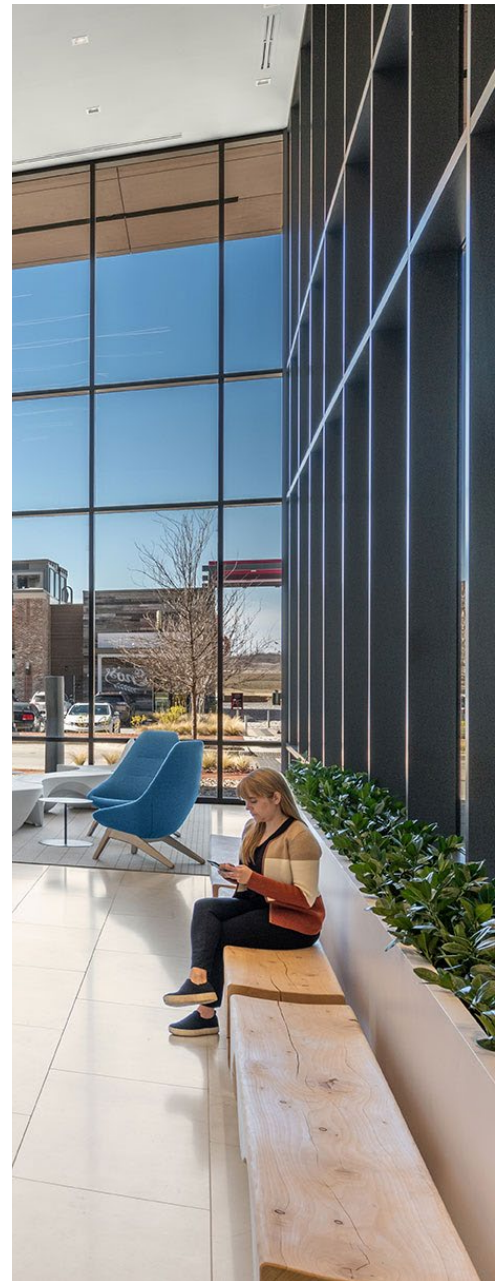

Nokia's Continuous Learning Program gives you access to a range of engaging certification programs i.e., Nokia Service Routing Certification (SRC), E2E 5G.

Obtain your internet badge by completing a minimum of 2 half-day sessions & scoring a minimum of 80% on the end-of-program assessment.

Sessions will be run virtually by Nokia instructors, in combination with an end-of-program assessment.
